*Item availability limited to select locations. Speak with a HOLT Truck Center parts professional for details.

@HOLTTRUCKCENTERS

TECH TIP

Keep Your Cooling System in Check This Summer

High summer temps can overwork your truck's cooling system. Make sure (or let us check) your radiator is clean, coolant levels are topped off, and your fan clutch is operating properly. A clogged radiator or a weak fan clutch can lead to overheating and costly downtime. Especially when idling for long periods in the heat.
